- Lower house. 4 twin bedrooms and 5 external bathrooms •
- Dar Jdida 2 twin bedrooms with a bathroom •
- Cabane Berbère 2 double bedrooms. Use external bathrooms •
- 2 double nomad tents. Use external bathrooms •

*This location is quite exceptional and unusual in that it brings the desert and an oasis to you but only 45 minutes drive from Marrakech. The owner found this spot quite by accident when out riding his horse & it has proven to be a remarkable find & offers a true adventure.*

After leaving the main road from Marrakech you turn onto an off road section that takes you across the desert style terrain and suddenly you descend into a valley and an oasis.

The French owner has very carefully created this idyllic spot into a traditional encampment with a mixture of Berber tents and traditional "pisé\*" small buildings with very comfortable accommodation with bathrooms with hot running water provided by solar power. The accommodation listed below can be added to by bringing in luxury tents with carpets, furniture, proper beds and linen. The staff are very friendly and helpful and the food excellent.

\*Pisé is a mud and straw construction that in summer allows building to be cool and in winter, warm.

The power is supplied by lanterns and candles and the hot water by solar power. At night as there is no light pollution the sky provides a ceiling of stars. Large camp fires are lit at night.

**LAP-DESA** provides a blank canvas where one can add to the accommodation allowing various permutations for groups. Berber tents can be added where needed. This is a perfect place for a private or corporate party to experience the desert without having to cross the Atlas. We can bring in traditional entertainers, musicians and dancers to add to the atmosphere.

**LAP-DESA** even has its own golf course! Not quite what you would expect and not exactly Arnold Palmer design, but great fun. The owner has made special golf cards showing each hole and the distances and the par.

The terrain and surrounding areas allow one to ride camels, horse ride, quad bike, 4x4, mountain bike and even hot air ballooning.

For people wishing to take an off road experience, we can use this location as a base camp and take you off road right into the Atlas Mountains, via a lake. This enables you to experience desert, a lake (with Jet Ski), mountain terrain, remote villages and all in a day.

In keeping with our policy of using images to tell the story, this PDF features many images of the location and the area. Please note when we took the photographs it was in January so the terrain has a light covering of green and flowers which disappear in March revealing the true desert terrain.

Some of the facilities available are,

- cross country golf
- Horse and Camel riding
- Motocross biking
- Quad and mountain bikes
- 4x4 opportunities
- Desert style hiking
- Plunge pool
- Traditional Moroccan entertainers
- Guides

Prices are on request and depend on the number of people and the facilities requested.
