

TERA-TAN

This location is located about 45 minutes outside Marrakech and offers a unique environment for corporate or private groups seeking a location for team building and activities. By prior arrangement **TERA** can be booked on an exclusive basis.

TERA do not allow motorised activities in the park. Everything here is **HIGHLY** ecological in outlook.

Owned by a Franco-Moroccan company a considerable investment has been made to provide the first place of its kind in Morocco. Set in the lower foothills of the Atlas Mountains and on the edge of a vast national park the venue offers stunning views.

TERA is divided into a number of areas and currently offers?

An "Aero Park", walking and mountain bike trails, a Berber encampment, excellent dining facilities, archery, hunting bird displays, traditional Moroccan entertainers, donkey polo, a large swimming pool (soon to be two) and horse & camel riding. The level of cuisine & service is excellent.

TERA offers a "blank canvas" so all manner of events can be created.

The Berber encampment can accommodate up to 300 persons in considerable comfort. There are full shower and WC facilities and the level of maintenance is very high indeed.

In the coming months there will be a number of private en suite lodges, a farm with animals and a special supervised children's activities area. When these are completed we will be making regular inspections.

The attention to detail and safety at **TERA** is excellent.

In keeping with our policy of bringing images to the forefront, we have created this PDF to give you an overview of some the current facilities. As the new facilities come on stream the PDF will be updated.
